### **ELKAY IS MORE THAN A FABRICATOR**

From initial design through final assembly, Elkay works closely with you to provide the highest quality and most cost effective solution to your fabricating requirements. For over 25 years we have provided expertise and quality products to a wide range of clients.

Our 33,000 square foot fully air conditioned facility is located in Sellersville, PA and is easily accessible to major interstate highways and the Pennsylvania Turnpike.

We would welcome the opportunity to discuss your fabrication requirements.
